California business entities as well as non-California business entities conducting intrastate business in California are required to register and be in good standing with the California Secretary of State to enter into an agreement with the Energy Commission. If not currently registered with the California Secretary of State, Bidders are encouraged to contact the Secretary of State's Office as soon as possible to avoid potential delays in beginning the proposed project (should the application be successful). For more information, contact the Secretary of State's Office via its website, listed above.
